TECHNICAL DATA

Safety

AIRBAGS.
Imagine: Seven snow-white airbags. But this is no fairy tale. The Alhambra's front, side, curtain, and driver's knee protection airbags make seven. Add passenger airbag deactivation and the option of rear side airbags too, and it's a dream come true.

MULTICOLLISION BRAKING SYSTEM.
With Multicollision Braking System your vehicle will automatically brake in the event of a collision, ensuring that the initial impact is reduced and subsequent collisions are prevented or minimised.

FRONT AND REAR PARKING SYSTEM.
Make parking safer, faster & easier with the front and rear parking sensors. Sensors let you know when you get too close to the car behind you when reversing into a tricky space. Get rid of bumps and scrapes once and for all.

TOP TETHER SEATBELTS.

Top-end safety features don't only belong up front. Top Tether rear seatbelts protect passengers by securing the upper body and reducing the forward rotational motion associated with front impacts.

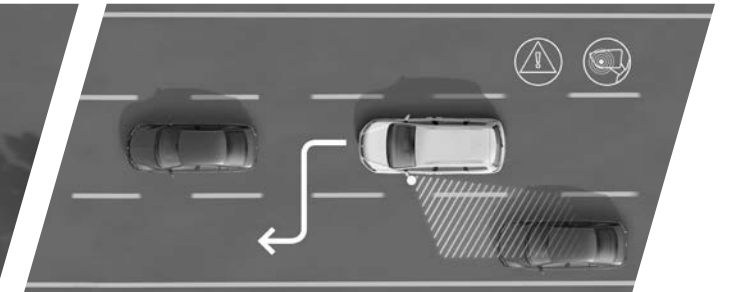

KESY KEYLESS SYSTEM.

For ultimate convenience and maximum security, add a KESY Keyless System to open and close the doors and boot of your Alhambra without even having to take your keys out of your pocket.

BLIND SPOT DETECTION.

Blind Spot Detection uses an LED warning light in your SEAT Alhambra's wing mirror to alert the driver if any cars are approaching when changing lanes.

SEAT is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While SEAT makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised SEAT Partner for the latest information. Due to limitations of the printing process the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
